# INTRODUCTION

This report outlines the work carried out at UVic during the 2014-2015 academic year. These facts and figures give a clear idea of where we are and where we are heading, and by comparing them with the information in previous annual reports you can get an idea of the evolution of the University over the years. We are a young institution, refounded just 18 years ago, and consequently we are still experiencing great changes as we consolidate and develop a distinctive profile. A significant change in our composition has arisen from the federation with the Bages University Foundation in January 2014, bringing into being the University of Vic - Central University of Catalonia, with two campuses, one in Vic and one in Manresa. This report contains only the information for the UVic Campus. Next year we plan to incorporate the figures for the UManresa Campus, which will by then include students enrolled at UVic-UCC.

**Jordi Montaña**

Rector of the University of Vic - Central University of Catalonia
